## ABOUT THE COLLEGE

SRM Valliammai Engineering College (An Autonomous Institution) was founded on 9<sup>th</sup> September, 1999 by Dr.T.R.Paarivendhar a well-known educationalist, in the name of his mother Tmt. R.Valliammai to impart world class education in Engineering and Technology particularly to develop useful manpower with entrepreneurship qualities for industry. It is a self-financed institution run by Valliammai Society. This institution offers Engineering UG degree courses in Agricultural Engineering, Artificial Intelligence & Data Science, Civil Engineering, Computer Science Engineering, Cyber Security, Electronics & Communication Engineering, Electrical & Electronics Engineering, Electronics & Instrumentation Engineering, Information Technology, Mechanical Engineering, Medical Electronics and PG degree courses in Communication Systems, Computer Science & Engineering, Data Science, Control & Instrumentation Engineering, Power System Engineering, Structural Engineering, Industry Safety Engineering (ISE) and Management Studies (MBA). The College is approved by the AICTE, accredited by the NBA, 'A' Grade Accreditation by NAAC and affiliated to the Anna University. The institute is spread over the wide area with modern laboratories and infrastructure with well-qualified staff members. It is an ISO 9001:2015 certified institute.

## ABOUT THE DEPARTMENT:

The Department of Physics, started in 1999, satisfies the needs of the Engineering Departments and has grown by catering to the demands of the Institution and students. The Department consists of Nine experienced Faculty Members, Six of them are Doctorates and four of them are Anna University recognized supervisors to guide Ph. D. programme.

The faculty members have published good number of research papers in reputed National and International Journals. The Department has been recognized as Research Centre by Anna University Chennai, under this eleven researchers have registered the Ph.D. program.

The Department organizes various events like Expert lectures, Seminars on different topics for the benefit of the students and faculty members. The resource persons have been called from different Indian Premier Institutions, R&D Organizations.

### OBJECTIVES:

The National Seminar, being arranged in the Department to bring together Scientists, Research Scholars, Post graduate and Under graduate students under one roof to understand the research activities among interdisciplinary and to introduce the emerging fields of technology to the budding researchers in our country with emphasis on technological applications. The experts are being invited from Universities and renowned laboratories. All aspects relating to novel materials like Nanomaterials, Thin film, Optical materials and Solar cell for energy storage applications and novel spectroscopic techniques will be covered during this period. This seminar would provide great exposure to the young researchers from various parts of our country. Also it would create healthy environment to the budding researchers and helpful to them for exchanging ideas with experts and to know the research facilities available within our Country.

### IMPORTANT DATES:
